Cordstrap Tooling Program

Our products and applications are made to the highest standard. However, daily usage leads to wear and tear and eventually breakage. To support our customers we introduced a tool repair program:

• All Tensioners can be sent to our tool repair department for repair. Labor charges will be free, you only charged for parts

• Locations can choose to do their own repairs. Cordstrap will supply all support information and your local Cordstrap rep. can support too.

Find out more from your local Cordstrap Representative.
