Cordstrap Preferred Supplier Program

Cordstrap Strapping

For truck freight and doorway protection

- ✓ **Safe:** Made of non-abrasive material, composite strapping is safe and easy to use.
- ✓ **Strong:** High securing strength – up to 5850 lbf
- ✓ **Performance:** Performs well under extreme temperatures, will not rust and won't scratch finished goods
- ✓ **Light weight,** shock absorbent and re-tensionable

Dunnage Bags

The most common cause of freight damage is falling cargo

- ✓ Dunnage bags are much more effective in stabilizing cargo than wood blocking and bracing
- ✓ Cordstrap D-Connect Dunnage Bags ensure cargo is secured as safely as possible
- ✓ Our Direct Connect technology means inflation is 20% faster than any other solution in the market

Moisture Control

Moisture damages 10% of the cargo in every container

- ✓ Temperature fluctuations, packaging and loading environments all cause humidity
- ✓ Humidity causes mold, corrosion, packaging damage and more
- ✓ Cordstrap's Moisture Control delivers the tailored protection you need

Take our [moisture risk assessment](#)

Anti-slip Mats

Cargo items can often shift, tip and fall in transit

- ✓ Eliminate these problems with friction
- ✓ Cordstrap Anti-slip Mats are engineered for all types of cargo
- ✓ High friction coefficient
